Experience

SDE Intern

AurJobs.com

Remote

Jan 2025 - Present

- Built the entire backend from scratch at AurJobs.com, creating and managing over **20** RESTful APIs for various services.
- Handled Supabase to design and manage **15+** relational tables to optimize data storage and retrieval.
- Implement user-based authentication for secure access, reducing unauthorized requests by **30%**.
- Integrated an AI model to calculate and deliver screening scores, improving candidate evaluation efficiency by **40%**.
- Developed a mail sender service using Google Apps Script triggers, automating **500+** communications monthly.
- Integrated the Razorpay API, streamlining payment processing and reducing transaction errors by **20%**.

Projects

Uploader – A multiuser web application for assignment uploads and admin reviews. Oct 2024 - Nov 2024

[GitHub](#)

- Engineered a Node.js web application enabling **50+** users to upload assignments, reducing project turnaround time by **30%**.
- Implemented user authentication via Passport.js using local and OAuth2 strategies, facilitating secure project uploads and admin-based assignment management.
- Integrated JWT authentication for admins to access, review, and approve or reject assignments.
- **Tech Stack:** Node.js, Express.js, PostgreSQL, JWT, OAuth2, Bcrypt.js

Blogify – A Backend web application with MongoDB Atlas integration.

Sep 2024 - Oct 2024

[GitHub](#)

- Developed Blog website which allows upto **100** users to create, read, update and delete their blogs by first registering and by logging in.
- Implemented full CRUD operations for functionality for seamless user experience and increased productivity.
- Secured the application using bcrypt.js and JWT, safeguarding user's data and privacy.
- **Tech Stack:** Node.js, Express.js, MongoDB, JWT, Bcrypt.js

Technical Skills

Languages: C/C++, Python, JavaScript

Web: HTML, CSS, React.js, Node.js

Databases: MySQL, PostgreSQL, MongoDB

Cloud & Tools: AWS EC2, AWS S3, Supabase, Git

Achievements

- Solved **500+** coding questions on platforms like CodeChef, CodeForces, and LeetCode.
- Achieved a **1407** contest rating on LeetCode and earned over **12** badges by solving more than **450** problems. [Link](#)
- Secured **662** rank in CodeChef Starters 58 (Division 3) with a highest rating of **1544**. [Link](#)
- Earned **5 stars** in Problem Solving on HackerRank. [Link](#)

Education

Kalinga University

B.Tech (CSE)

Raipur, India

Aug 2020 - Sep 2024

- **CGPA:** 7.0/10.0
- **Relevant Coursework :** Algorithms and Data Structure, Database Management System, Operating System, Object Oriented Programming, Computer Networks
